and Environment

November 14, 2003

Mr. Joseph Legare
Assistant Manager for Environment and Stewardship
U.S. Department of Energy
Rocky Flats Field Office
10808 Highway 93, Unit A
Golden, Colorado 80403-8200

RE Approval, Environmental Restoration RFCA Standard Operating Protocol For Routine Soil
Remediation FY04 Notification #04-03, IHSS Groups 500-1 and 500-5 (IHSS 300-186, 500-117 1, & 500-
197 and PAC 500-904), November 2003

Dear Mr. Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management
Division (the Division) hereby grants approval for the subject document. However, as stated in the Notification,
"historical knowledge indicates that additional characterization is warranted. The IHSS Groups will be further
characterized in accordance with IASAP Addendum #IA-04-03 [Section 2.3, Screen 1]"

Given the fact the SAP Addendum has just been approved and the sampling has not yet occurred, the extent of
excavation and remediation has not been determined at this time. Accordingly, application of this Notification
must be limited to those locations within IHSS Groups 500-1 and 500-5 specifically considered and approved as
data become available. Division approval will be granted through the consultative process as documented in a
contact record.

Please submit revised cover materials, showing the approval date, for the administrative record. Additionally,
please modify the third bullet of Section 2.4 to clarify that Americium 241 is not subject to the same RFCA WRW
AL as Plutonium 239/240.

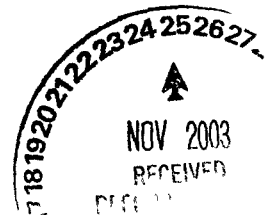

If you have any questions regarding this correspondence, please contact me at (303) 692-3367, Harlen Amscough
at 303-692-3337 or Carl Spreng at 303-693-3358.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
